# Our Success Story

## Mercury score contract for premier security

In the South Central Division of the Isthmian League, **Hayes & Yeading United** have found their home at the SKYEx Community Stadium. Protecting their property was an important issue and Mercury were called in to blow the whistle on intruders.

Mercury Systems have strong community links – sponsoring local sports clubs they are keen supporters of their local football teams. When Hayes and Yeading FC wanted to up their game when it came to their security requirements, Mercury were only too pleased to help out.

To understand the full breadth of the issues involved and the type of tailored solution required, the two teams worked closely to ensure the end result encompassed the right solution at the right price, whilst remaining scalable for future stadium upgrades. It was vital to ensure the quality of images so it makes the identification process of offenders much more efficient. Mercury rose to the challenge without any disruption to fixtures and installed:

- HD CCTV to protect the stadium perimeter from potential break-ins
- Internal CCTV in public areas to protect both club members and fans
- Intruder Alarms
- Maintenance

The project has had a positive impact from day one, ensuring that the grounds are protected on non-match days and crowds and players alike are safe whilst the action takes place.
